Focus:

We provide expertise and innovative approaches to outsourced service delivery for corporate organizations, by providing technical and business expertise coupled with highly evolved service methodologies and appropriate tools.

Results

E2 services are driven by results for our clients. That means we utilize innovation, expertise, flexibility and diversity as key tools in helping our clients to achieve ROI faster and more reliably than with traditional or ad-hoc approaches. Our Value Impact Planning Program (VIP), which encourages our teams to prioritize according to greatest achievable value helps clients realize the most significant impact on the problem with minimal expense.

Innovation

Our passion is to create innovative solutions that provide for the long-term business needs of our clients. We foster innovation among our teams through individual empowerment, network mentoring and collective contribution.

Expertise

We are committed to bringing the best and brightest talent to support solution definition, development and implementation.

Flexibility

E2 solutions offer a unique value proposition in that our solutions and methodologies are flexible and adaptable to any stage of solution development to create a significant impact. We can tailor a solution to match any of your particular business needs.

Diversity

We believe in bringing diverse solution-centric resources to the table which allow us to apply the most appropriate tools to task and to get the job done right the first time.

Transparency

Our solutions are developed with full client visibility. Real solutions cannot be created in isolation from the final environment.
